Programming & Analysis: Python, Pandas, NumPy, SQL
Business Intelligence: Power BI, DAX, Data Visualization, KPI Reporting, Dashboard Development
Data & Office Tools: Microsoft Excel, Data Cleaning, Data Validation, Exploratory Data Analysis
Soft Skills: Problem Solving, Teamwork, Adaptability, Quick Learning

WORK EXPERIENCE

Data Analyst Intern — Zephyr Technologies | 3 Months

- Collected, cleaned, organized, and analyzed datasets using Excel, SQL, and Python.
- Performed data validation and exploratory data analysis to identify trends, patterns, and business insights.
- Created Power BI dashboards and reports to present key metrics and findings clearly.

PROJECTS

Sales Data Analysis & Power BI Dashboard | Python, Pandas, SQL, Excel, Power BI, DAX

- Cleaned and analyzed sales data using Python and SQL to prepare reliable data for reporting.
- Built an interactive Power BI dashboard with KPIs and visualizations for business performance analysis.
- Analyzed sales, customer, product, and regional performance to identify trends and performance differences.

Price Comparison Website | PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a web-based platform to compare product prices across online stores.
- Used PHP and MySQL to manage product and pricing data, with web scraping for price collection.
- Implemented product search, price comparison, and product listing features with a responsive interface.
